

Create a resume using JSON Format

```
var resume = [  
  {  
    "name": "Vishnu Prasad",  
    "dateofbirth": "2/6/199*",  
    "sex": "male",  
    "contactdetails": {  
      "phone number": "+91-96776*****",  
      "Emailid": "Vishnuravichandran.28@gmail.com"  
    }  
  },  
  {  
    "education": [  
      {  
        "degree": "Bachelor of Electrical and Electronics Engineering",  
        "university": "Anna University Chennai",  
        "course duration": "2011 to 2015",  
        "college name": "Info Institute of Engineering",  
        "location": "Coimbatore"  
      }  
    ]  
  },  
  {  
    "skills": [  
      "javascript",  
      "html",  
      "css",  
      "react",  
    ]  
  }  
]
```

```
        "nodejs",
        "mongodb",
        "git",
        "github",
        "expressjs"
    ]
}
];

// Using a for loop to iterate through resume
for (var i = 0; i < resume.length; i++) {
    console.log(resume[i]);
}

// Using a for-in loop to iterate through resume
for (var key in resume) {
    console.log(resume[key]);
}

// Using a for-of loop to iterate through resume
for (var obj of resume) {
    console.log(obj);
}

//using a for -each method to iterate through resume
resume.forEach(function(item) {
    console.log(item);
});
```
